FINANCIAL AND COMMERCIAL

MONDAY, June 29-6 P. M. The gold market has been active to-day, but the suctuations were limited to & per cent-namely, from 140 to 140%, with the closing transactions prior to the adjournment of the board at 140%, following which this price was bid. Cash gold was more abundant than at the close of last week, and loans were made without interest and at 1 a 3 per cent per annum and 1-64 per cent per diem for borrowing The gross clearings amounted to \$50,825,000, the gold balances to \$1,867,116 and the currency balances to \$2,642,448. The imports of specie at this port from foreign ports last week amounted to \$354,115, making a total of \$3,903,296 since the 1st of January. Government securities were quiet, but steady under an improved demand and an absence of all pressure to sell. In the afternoon the demand quickened, and it is noteworthy, as foreshadowing the democratic nomination on the Fourth of July, that the democratic bankers were large buyers. The report from Washington that the House of Representatives had passed a resolution authorizing the Committee of Ways and Means to draw up a bill taxing the interest on federal bonds checked the improving tendency, but this will practically remain a proving tendency, but this will practically remain a dead letter, and therefore it possesses no importance. At the close the market was dull but firm at the subjoined quotations:—Registered, 1881, 113½ a 113½; coupon, 1881, 117½ a 118; 5-20's, registered, 1862, 109½ a 100½; 5-20's, coupon, 1862, 113 a 113½; do., 1864, 110½ a 111½; do., 1865, 111½ a 111½; do., 1865, January and July, 114 a 114½; do., 1867, 114 a 114½; do., 1868, 110 a 110½; 10-40's, registered, 106½ a 10°½; 12-40's coupon, 10°½% a 10°½%; Lune, 7 30°s. a 107%; 10-40's, coupon, 107% a 107%; June 7.30's, 109% a 110%; July 7.30's, 109% a 110%; August compounds, 1865, 11834; September do., 118; October

The street was full of rumors t his morning to the efct that the July interest on the Tennessee State bonds could not be paid, and there was considerable presure to seil them in consequence. It is stated on conditional and the some of the holders of the bonds of 1838 of the Bank of Tennessee, issued by the State, ut endorsed by the bank, and which matured to the amount of \$1,038,000 on the lst of May last, but were not paid, have attached the funds in the hands of a er of the presidents of the Tennessee railways who are now in this city arranging for money with which to pay the interest due on the 1st proximo. The moneys thus attached being the main reliance of the State for the payment of its interest, appre-State will be seriously embarrassed in conse-quence. One of the rumors referred to vas that the financial board, created by special act of the Legislature last session, charged with the duty of providing for the payment of that part of the debt which matures within three years, including the interest on the general bonded debt, will be en joined and restrained from paying the July interest on the State indebtedness while the past due May true and the claims of the holders of the matured bonds are sustained by the courts, relief must be sought through the next Legislature before the

The stock market was somewhat unsettled during ie day, partly in consequence of a bear raid organazed for the purpose of inducing small holders to sell out; but the decline from the highest prices of last week was trifling, and in the afternoon the general tendency of prices was towards improvement. Reading was the firmest of the railway shares, the report being that the Pennsylvania Coal Company, the Delaware and Hudon Canal Company and the Delaware and Lackawanna Coal Company are buyers of the stock, with a lew to controlling the Reading company at the next dection. Frie was depressed by "short!" sales based on the fact that three injunctions have been issued day upon parties connected with the company. se of these orders, granted by Judge Barnard, susends Mr. Eldridge, the president of the company, rom the duties of his office as president for causes merated in the complaint, and another granted by Judge Ingraham, at the suit of James Pisk, Jr., restrains the board of directors from filling any vaancies which may be caused by resignations in the It is, however, understood that a meeting board will be held at seven o'clock this evening, at which an effort will be made to elect Mr. Daniel Drew president in the place of Mr. Eldridge. mand, and loans on call are made mainly at three per cent, the outside rate being four, while cial paper is scarce and the best grade is in equest at 5 a 6 per cent. This easy condition o ary affairs will probably not be interrupted ober, when the rate will be advanced to even per cent; but the prospect is decidedly against stringency at any time this year, the government being out of the market as a borrower and trac untry; while the volume of currency will remain stationary for an indefinite length of time to come a comparison of the statement of the associated panks of this city for the week ending on the 27th anst. with that for the corresponding week in each of the three previous years shows the following

A Chicago journal of Friday, in referring to local netary affairs, says:-

By some of the banks a better demand for money is reported, but this is not general, and though there is a positive improvement in that respect over the condition of a month ago there was none during the past few days. Balances to mercantile accounts are, however, not increasing, and country banks having drawn down their accounts some have left a smaller amount of loanable funds at the disposal of the banks here, though it is still in excess of the demand for the discount of such paper as the banks care to take.
